WHO KILLED MR LEE ?

Will you manage to solve Mr Lee's murder?

Inspector Eliott gathers the participants in the police station. In a mysterious and tense atmosphere, he discloses the first elements of the criminal investigation which will help the participants solve the murder of Mr Lee, a well-known Chinese billionaire, who was in Belgium to make the deal of the century.

Grouped in teams, the participants examine every nook and cranny of the villa for clues and information. Participants obtain those clues only when they have successfully completed a series of challenges which require excellent team skills: information sharing, motivation, mutual support, strategy, synergy...

Collaboration, interaction, intrigues and reflection are the key words of this innovative team building activity.

THE MOLE

In 'La Talpa', we introduce you to an exciting game where nobody can be trusted.

Participants are divided in groups who compete against each other in all kind of tests. Some play a double game: they secretly try to sabotage the missions.

Finally, however this is a team building game and you try to win as a group. An interesting idea to start a game: knowing that you must cooperate if you want to win, while at the same time realizing that someone is trying to prevent it.

A game where collaboration is necessary to have enough information at the end of the game to be one step ahead of the traitor, to block and to unmask him/her!

ESCAPE THE VILLA

Will you manage to escape the Villa before Jack the Ripper's visit?

On a dark stormy night of 1897, after a company meeting, you and your colleagues find yourselves locked in the Villa.

Everyone knows «Jack the Ripper», the famous serial killer active in and around the Whitechapel district of London in 1888. What few people know is that the Villa du Lac in Genvral was also, a little later in 1897, the scene of his brutal crimes. In the last few days, several murders have been committed in Genvral.

Take a trip back to the late 19th century, enter the world of the killer and try to escape before his usual time of mischief!

You have 90 minutes to discover the secrets of this cursed place and find the key to escape.

The participants, grouped in teams of six, all hope to be alive at the end of the game...

BEAT THE BOX

Every team is given a locked aluminium trunk.

A mysterious video takes the players on an adventure. With the information from the video, the teams should be able to open the trunk. Inside, there are four more locked boxes, full of puzzles and riddles to decipher.

By working together and sharing information, the participants will be able to bring the game to a successful conclusion. Teamwork is essential.

THE S.W.A.T.

Will you qualify for the S.W.A.T.?

The participants are gathered in the Villa du Lac to test their ability to qualify for the well-known FBI tactical operation group, S.W.A.T.

Trained to fulfill a series of specific missions, the new recruits must score high!

The challenges the applicants will be faced with are varied as the S.W.A.T. is active on land, at sea and in the air.

Collaboration, interaction, leadership, problem solving and strategy are the key words of this team building activity.

BREAK THE CODE

In this teambuilding activity, you take on the challenge of cracking the code of a fictitious safe.

Armed with a smartphone or tablet, you will go in teams of 5 to 6 to find different hotspots where you score points by solving riddles. For each solved riddle, you will receive a key with which you can unlock bonus tasks (photo and video tasks).

Slowly but surely, you collect all the information needed to unlock the code of the final assignment.

BEYOND LIMITS & DIFFERENCES

Beyond Limits and Differences or learning to deal with limitations and differences.

We present the participants a number of team assignments that allow them to experience first-hand what living with limitations or differences means. So here we go much further than just the physical and mental limitations of an individual, but also respond to possible cultural and linguistic differences. In doing so, we try to create a kind of awareness in each participant in order to finally bring about a change in their behaviour and outlook with regard to these limitations. We want to bring the participants to understand that being 'different' can also mean added value.

During the assignments, the participants are completely dependent on each other. They will not succeed in their assignment without working together. The assignments provide the opportunity for experiential learning and each also contains a certain fun factor.

TRAVEL AROUND THE WORLD – THROUGH TIME

Each team chooses to represent a country and provides its own costumes (homework as a teaser). Optionally we can also provide costumes if necessary.

On the day itself we travel around the world, from country to country...

Each country has a practical task to fulfill, knowledge questions to answer, a workshop and a tasting session. During the various missions the countries can raise their joker that they gained during the tastings/knowledge questions.

This concept can also be used as a travel through time where the participants travel from prehistoric times to the 21st century and also complete all their missions.

2CV RALLY

Each team has a 2CV and a tip top road book with which you can discover a region to your liking. Along the way, some practical tests await you under professional guidance that must be brought to a successful conclusion.

Optionally, we are happy to look out for some stops for a snack and a drink. Give us your preferences in terms of timings, catering, region, stopovers ... and we are happy to work out a tailor-made proposal.

In Napoleon's footsteps

We drive around in Walloon Brabant in the region south of Brussels around Waterloo where Napoleon was defeated in 1815. And in the immediate vicinity are picturesque places such as the castle of La Hulpe, the foundation Folon, the lake of Genval, the beautiful Lasne,... A beautiful region to cross with the 2CV.
