

Our Environmental Commitment

Hôtel Napoléon & Spa, Green Key certified

Hôtel Napoléon & Spa in Fontainebleau is committed to more responsible tourism and is proud to be Green Key certified.

Green Key is an international environmental label that recognizes tourism establishments committed to responsible practices. It highlights concrete actions taken to reduce their environmental impact and promote more sustainable practices.

Our daily actions

At Hôtel Napoléon & Spa, we work every day to improve our environmental practices, including:

- reducing our water and energy consumption;
- sorting and reducing waste;
- limiting single-use plastics;
- using more environmentally friendly cleaning products;
- raising awareness among our teams and guests about eco-friendly practices;
- selecting local products and working with partners committed to responsible practices whenever possible.

Our approach is based on continuous improvement. We regularly look for new solutions to reduce our environmental impact while maintaining the quality and comfort of your stay.

And you ?

You can also contribute to this commitment during your stay.

Simple actions can make a difference: limiting your water consumption, turning off the lights and air conditioning when leaving your room, and reusing your towels whenever possible.

Thank you for joining us in promoting more responsible tourism.
